janati@mcinet.gov.ma

## Project description

Stone paper manufacturing unit for the manufacture of cardboard paper as a substitute for wood fiber-based paper pulp (manufacture of stone paper based on phosphate waste available in abundance in Morocco)

**Main clients :** Paper and cardboard manufacturing industry

## Branch

Clean production

## Sub-branch

Paper

## Financial indicators (estimated)

**Potential investment**

850 Mns MAD for a capacity of 70 kT

**Potential turnover**

400 – 500 Mns MAD

**EBITDA in % of turnover**

10% – 15%

**Jobs**

~300 direct jobs

## Key facts

- Production potential of 70KT in the short term and 250KT in the medium term with a major strategic impact for the whole paper-cardboard industry and for Morocco as a leader in the production of paper-cardboard within 1-2 decades
- Major opportunity for the production of water-efficient stone paper with a track-record in China in this market

## Product Complexity<sup>2</sup>

Lack of imports

## Market growth and size

Lack of imports
