Project description

Galenic development unit specific to each pharmaceutical company, to promote the development of local industry and reduce the purchase of files, particularly for new drugs and generics

Main clients : Morocco, Africa...

Key facts

- Local laboratories resorting to the purchase of galenic files abroad, for reasons of complexity, quality or speed of delivery, during the development of products, thus leading to a strong dependence on foreign countries
- Supply disruptions for laboratories using industrial transposition and depending on a single supplier
- Opportunity identified for the establishment of a galenic development unit as part of the national sovereignty strategy
