# Manufacturing unit for wheelchairs with engine

Contact: Mme. Chemaou El Fihri Khadija

**Division:** Electrical and electronic industry

## **Project description**

Production unit for motorized wheelchairs to cover an important part of the growing needs of European countries (especially France and Spain) and West Africa and in the context of the independence of Asian countries

## **Key facts**

- The global wheelchair market was estimated at \$4.5 billion in 2018, of which ~40% were electric wheelchairs, which are expected to grow at a significant rate, with a projected increase of 15% to 20% by 2025 driven by an aging population, increasing injury rates and non-communicable diseases
- More than 75 million people worldwide need a wheelchair but ~85% do not have access to one

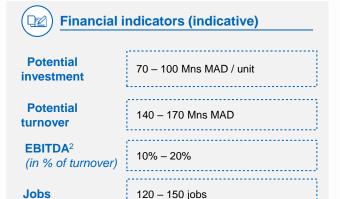

### Main required **Product** Complexity<sup>1</sup> products Electric engine Aluminium Plastic 0,629 Steel Main investment benefits Training assistance Grants Industrial Development « IDMAJ » Program and Investment Fund Istitmar SME Program « TAEHIL » Program or VSE, subject to the turnover **Potential land Financing** Had soulaem IZ SME Mezzanine Tanger IZ Tamwilkoum Jorf Lasfer Agadir IZ

**Medical Devices** 

<sup>1.</sup> Product Complexity Index:the diversity and sophistication of the productive know-how required to produce a product. Products with high PCI value (the most complex products that only a few countries can produce) include electronics and chemicals. Products with a low PCI value (the least complex product that nearly all countries can produce) include raw materials and simple agricultural products.

<sup>2.</sup> Earnings before interest, taxes, depreciation and amortization
